HANDLEBAR STUMP GRINDERS

The Toro® SGR-13 and SGR-6 Handlebar Stump Grinders are compact and maneuverable to access harder to reach stumps, to efficiently turn stumps to mulch. Their well balanced design and easy to use controls ensure easy operation - for both professionals or homeowners looking to rent. Each unit features convenient lift handles for easy loading and unique cutting technologies that combine smooth grinding with simple maintenance.

FEATURES

COMPACT & MANEUVERABLE

- Access hard to reach stumps or grind near other objects
- The SGR-6 is Toro's smallest stump grinder for access to stumps in tight spaces.
- The SGR-13 is powerful yet nimble enough to reach stumps near houses, other live trees and other close spaces
- Lift handles ensure easy loading and unloading. Foldable handle allows compact transport in a SUV, car, truck or minivan

SUPERIOR CUTTING PERFORMANCE

- Innovative grinder teeth that shear rather than shred -sheering is a smoother motion that allows for faster, more efficient stump cutting
- SGR-6 cuts up to 10.4" (26.4 cm) above and 6" (15.2 cm) below grade
- SGR-13 cuts up to 14" (35.6 cm) above and 11" (27.9 cm) below grade

USER-FRIENDLY, DURABLE DESIGN

- Lightweight for easy maneuvering into the grinding position
- Heavy-duty centrifugal clutch is built to handle stump impact
- Rubber gaskets between the handle and frame help reduce vibration and operator fatigue
