MX BRUSH CUTTER

"Just like to say that the Vail Brush
Cutter is absolutely amazing! I've ran
mulchers and several other brush
cutters for years and this cutter
surpasses them by far! I am looking
forward to doing more business with
Vail in the future."

OVERVIEW

The MX Brush Cutter delivers impressive power, boasting a torque of up to 200 lb. ft*, all while maintaining a sturdy weight that optimizes the center of gravity. This is achieved through its strategically positioned centralized hitch. Our Brush Cutter is plug and play ready – compatible with most mini excavators in the market. The package includes mounting brackets, hoses, and couplers, all covered in the unit's price, with no need for a case drain retrofit.
