Boom Type	Di-electric	Steel	Steel, Offset

A large FECON trimmer is shown in a field of tall grass. The boom is extended, and the circular blade is visible at the end. The FECON logo is printed on the boom.

**BUILT FOR LIFE
ENGINEERED FOR SUCCESS**

Trim Ex tree trimming saws let you tackle tree trimming with small to mid-size carriers you already have. With a working height as high as 26 feet and the ability to rotate the blade, the high-speed saw allows you to make continuous clean cuts from one machine position. Whether in agriculture, landscaping or tree care, take on tree maintenance quickly, safely and efficiently. Boost safety around live wires with the di-electric model.

EFFICIENCY

- ❖ Compatible with a wide range of carriers such as skid steers, compact track loaders, tractors and telehandlers.
- ❖ Reduces manual labor by eliminating need for chainsaws, bucket trucks or dedicated forestry machinery.
- ❖ TE18C models can fold into a compact position for easy transport and storage.

PRODUCTIVITY

- ❖ Trim Ex models reach up to 26' for easy trimming.
- ❖ Minimizes maintenance with no loose chains, bar oil or required daily service.
- ❖ Saves time and money compared to bucket truck use for right of way vegetation removal.

PERFORMANCE

- ❖ 3,000 rpm blade achieves continuous, clean cuts from one machine position.
- ❖ Carbide blade tips are replaceable.
- ❖ Steel housing protects the hydraulic lines.

SAFETY

- ❖ Operator directs tree saw from the safety and comfort of the cab.
- ❖ The TE26D features dielectric protection for operation around live wires.

180° SAW HEAD ROTATION

Control saw head rotation from the cab for the optimal cutting angle.
